

RT-TEP

RT-TEP is an on-line test developed by Password which is popular worldwide. The Password level can be equivalently compared with TOEFL and IELTS. The result was satisfied. Our IE department members can use the perceived experience to advise our IE students regarding the test especially Master students who need to pass level 4.5 to graduate. Moreover, IE undergraduate students can use this system to benchmark their English proficiency to prepare themselves for AEC community in 2015.

IE department members has taken RT-TEP English Proficiency Test on Friday 2 November 2012 at i-training section of ICT building. RT-TEP is an on-line test developed by Password which is popular worldwide. The Password level can be equivalently compared with TOEFL and IELTS. The result was satisfied. Our IE department members can use the perceived experience to advise our IE students regarding the test especially Master students who need to pass level 4.5 to graduate. Moreover, IE undergraduate students can use this system to benchmark their English proficiency to prepare themselves for AEC community in 2015.

Getting ready for the RT-TEP test

RT-TEP is computer-based test. The result is shown right after the test.

Congratulations to FS1 Sakchai Chantasri for Password Plus 6.0 Achievement

Only 60 minutes test time, so time management skill is needed.
